

Foundations Apps Speed Your Time to Completion

GxP Appian DocuSign Contract Solution App

This app creates contracts with DocuSign integrations -- manages contracts, referral agreements, expiration dates, dollar amounts, contract assignments, contract reviews and approvals with integrations to third party signing companies like DocuSign.

GxP Appian Policy Administration Portal App

With this app you can manage and control documents as well as your own learning content management system (LCMS).

GxP Domestic Relations Office App (w/ Sub-Department Apps)

This full DRO app is being used to run everything for all four DRO sub-departments: 1) Child Support Office (CSO) App, which handles all office services such as establishing child support payments and scheduling judges. 2) Legal Enforcement (LE) App for police and all legal officers that support the DRO. 3) Community Supervision Unit (CSU) App for enforcing child support services. 4) Family Court Services (FCS) App for helping families to cope with divorce proceedings.

GxP Delinquent Tax Sales App

County governments are using this app to run the property redemption auction process in the unfortunate situation where delinquent tax sales become necessary.

GxP Claims & Appeals Optimization System (CAOS) App

Healthcare industry providers are using this app to run their entire claims and appeals process in order to comply faster with federal process regulations and to help their patients to obtain the benefits they have paid for.

GxP Appian Geotagging and Geolocations Asset Tracker App

Integrating with Amazon IoT and NimbleLink, this cellular and network-enabled app will monitor high-value assets, set up notification alarms, and will even plug into cars!

GxP Proof of Life App

Pension departments need applications to assist them with proof of life/knowing your customer issues so that payments are handled appropriately. This app will do just that.

GxP Generates xPonential Power by using the power of the Appian low-code platform to integrate a wide range of technologies to rapidly develop customized enterprise applications.

Technologies
