

WE SUPPORT THE U.S. MILITARY

**JOHNNY MAC
SOLDIERS FUND**

Giving back through education.

www.johnnymac.org

Reveille DME is a proud supporter of the Johnny Mac Soldiers Fund, which honors military service and sacrifice by providing scholarships to veterans and military family members, particularly children of our nation's fallen and disabled.

REVEILLE DME: HELPING OUR MILITARY WAKE UP PAIN FREE

Reveille DME is a veteran-owned, veteran-operated durable medical equipment service company fully focused on serving our U.S. military personnel. We are bringing the highest quality, state-of-the-art orthopaedic and podiatric post-surgical therapy equipment to our service people at military bases. We are unique in the healthcare service world because we deliver these therapies on base to patients' homes upon the prescription of base surgeons. We are thoroughly committed to serving those who serve.

BEST-IN-CLASS SERVICE

- **VIP ON-BASE CONCIERGE SERVICE**

A thoroughly trained Reveille therapy specialist will deliver and explain use of the therapy equipment at the patient's barracks or residence. Reveille takes care of all claims processing with Tricare or other commercial insurers.

- **ENHANCED THERAPEUTIC OUTCOMES**

Reveille therapies speed recovery, reduce edema, increase range of motion, and manage pain so fewer oral narcotics are needed.

- **COVERAGE**

Reveille Therapies are covered benefits per Tricare Online Manual Chapter 4 Section 6.1. There is no cost to active duty personnel per DOD regulations.

PHYSICIAN BENEFITS

- Happier patients due to quicker healing
- Satisfaction of providing highest-tech therapies in the market
- Working with a veteran-led and military involved provider as an adjunct to your care

BEST HIGH-TECH THERAPIES IN THE MARKET for POST-SURGICAL TREATMENT

OrthoSave™

THE ORTHOSAVE™ SYSTEM

The top-of-the line solution for post-surgical orthopaedic and podiatric recovery and rehabilitation, the OrthoSave™ provides intermittent pneumatic compression that drives temperature-regulated therapy to the site of healing while providing DVT prevention.

iCPM™

CONTINUOUS PASSIVE MOTION

The iCPM™ reduces edema and joint stiffness, prevents soft tissue contractures and muscle atrophy while it simultaneously improves range of motion and reduces pain.
